D	DERMOFEEL™ G 10 LW	POLYGLYCERYL-10 LAURATE (AND) WATER	DR STRAETMANS*	1.00

Manufacturing Procedure:

1. Heat phase A up to 75°C under stirring to dissolve Amigel.
2. Add B and keep under stirring during 20 minutes.
3. Mix phase C at room temperature and add under stirring.
4. Increase stirring rate up to maximum level with a rotor stator during 3 minutes.
5. Add D and cool down under medium stirring.

Formula Specifications:

Aspect: Sprayable white lotion.

Viscosity (RHEO ELV8, Spindle 4, 10 rpm, 3 mn): 2 000 - 4 000 mPa.s

pH: 5.5 - 6.0
